1.3	Installation . . . . .	1
<b>2</b>	<b>Package Use</b>	<b>1</b>
<b>3</b>	<b>Q&amp;A</b>	<b>1</b>

## 1 Introduction

### 1.1 Purpose

This package is intended to serve somewhat the same purpose as the very (deservedly!) popular package **Rcpp**.

### 1.2 License

The **SEXPtrools** package is licensed under the very permissive 2-clause BSD license, commonly referred to as the FreeBSD license.

### 1.3 Installation

## 2 Package Use

## 3 Q&A

Why make this?

How does this differ from Rcpp?

Why would I want to use it?
